Attention Waterworks Owner/Operator:

Precautionary Drinking Water Advisory (PDWA) for *the Village of Craven* - Rescinded.

The Water Security Agency (WSA) is satisfied with *two sets of* negative bacteriological sampling and adequate disinfection residuals and turbidity values from samples that have been collected from the water distribution system following leak repair which caused the localized depressurization. Therefore, effective immediately the WSA is rescinding the “**Precautionary Drinking Water Advisory**” for the residents and users of the *Village of Craven* water supply.

For further information, please do not hesitate to contact the undersigned at 306-527-6128 or Jeff.Hindle@wsask.ca.

Sincerely,
